LUXURY POWER CATAMARANS

Custom-Built Dreams

Surprisingly within reach.

At GranOcean, we believe the future of yachting is personal. That's why every detail is designed to reflect the owner's unique lifestyle—down to the layout, finishes, materials, and features.

Whether you're envisioning a family-focused cruising configuration, a charter-ready setup, or an entertainment-centric deck plan, the GranOcean adapts to your ambitions. Not the other way around.

Our design team works closely with each client to ensure form and function align seamlessly—delivering a vessel that's not only luxurious but truly yours.

Because luxury isn't just what's included.

It's what's made possible.

"Crafting luxury power catamarans is a passion that drives every detail of our work. At GranOcean, we blend cutting-edge innovation with time-honored craftsmanship to create vessels that embody elegance and performance. I invite you to experience the sea with us, where every wave tells a story of our commitment to excellence."

Excellence Since 1998

With over 25 years of experience, GranOcean is a pioneering force in the yacht manufacturing industry, crafting high build-quality, innovative power catamarans designed to meet the custom needs of discerning pleasure yacht clientele around the world. Exceptional performance, stylish appeal, unmatched customizability, and attractive entry prices combine to make GranOcean power catamarans an industry game-changer.

Today, GranOcean has achieved numerous successful yacht deliveries worldwide, and stands as a unique, quality builder, disrupting the industry in the development and manufacture of custom and semi-custom power catamarans in both composite and carbon fiber. Our commitment to excellence and innovation ensures that every GranOcean yacht is a masterpiece of design and engineering, setting new standards in the world of luxury yachting.

Industry-leading Partners

Naval Architecture by Stimson Marine Design & Howard Apollonio

Stimson Marine, is a leading innovator in marine technology, specializing in the design and manufacture of cutting-edge vessels for commercial and defense applications – including America’s Cup.

Respected Professional Engineer, Howard Apollonio boasts a boatbuilding career spanning over 50 years and is recognized for his work in propulsion, designing advanced commercial craft, and engineering of performance-oriented crafts.

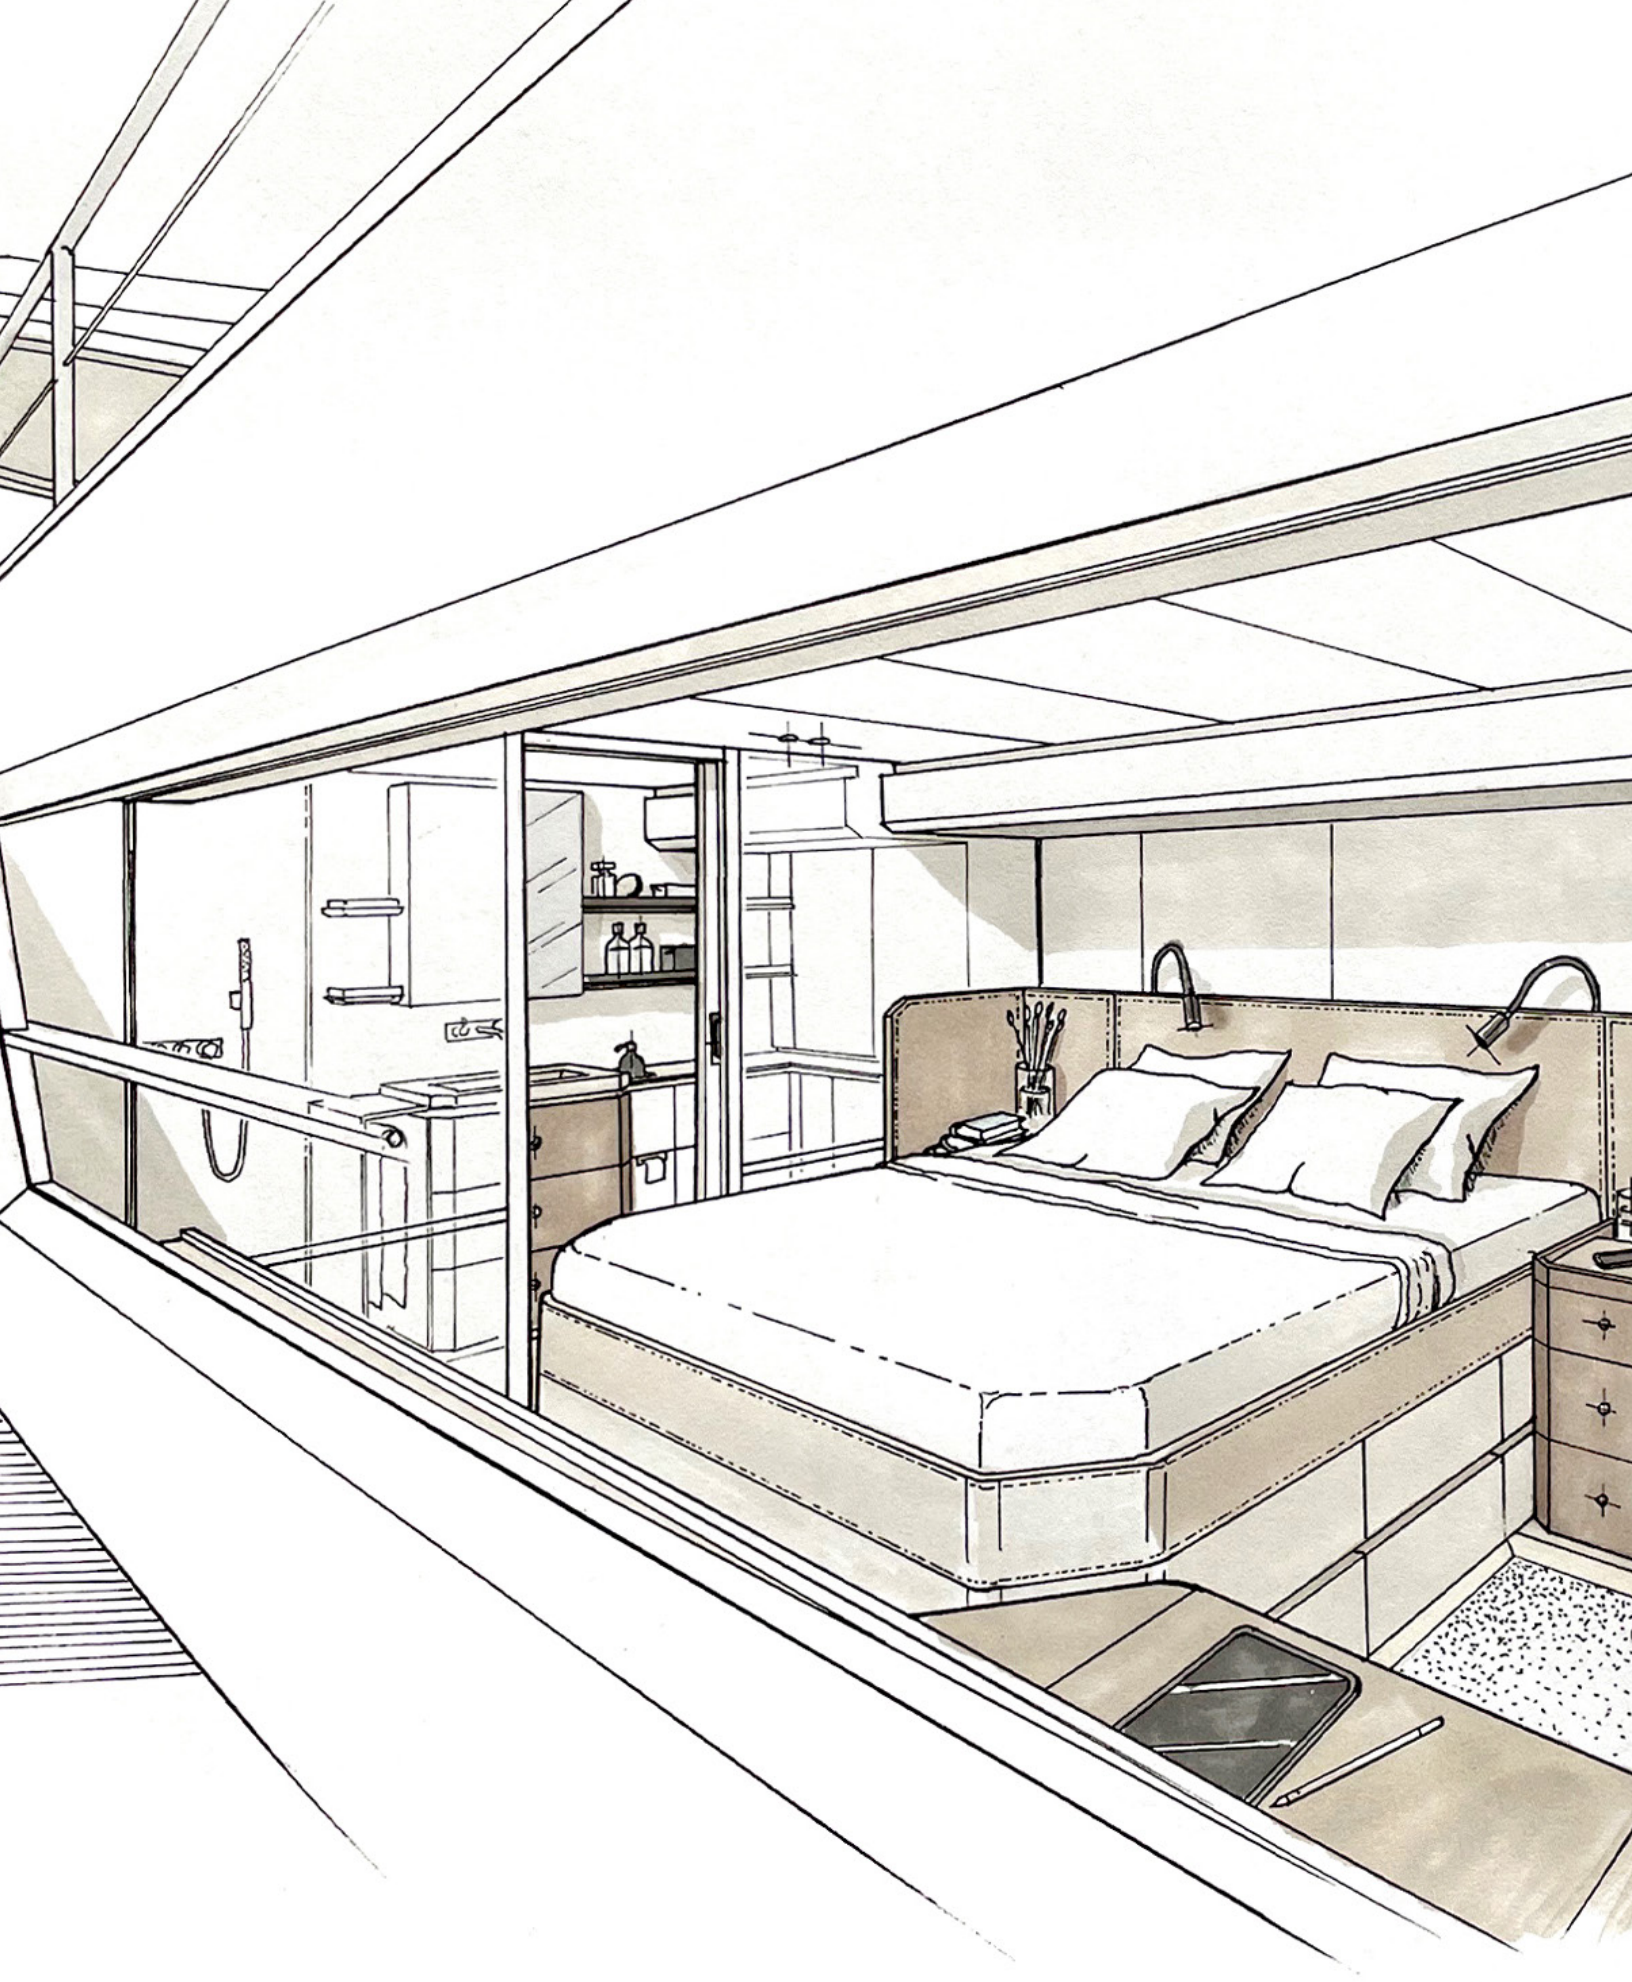

Construction & Technology by Gurit

Gurit is renowned in the boat-building industry for its expertise in composite materials and structural engineering. They are particularly known for their innovative use of advanced composites utilized in the construction of high-performance and lightweight vessels.

Global Sales & Aftercare by Catamaran Guru

As the global authorized distributor for GranOcean, Catamaran Guru is a trusted partner dedicated to stewarding the brand across international markets.

With over 25 years of yacht sales and aftercare expertise, Catamaran Guru works closely with owners and the GranOcean team to ensure each yacht is optimized for its cruising grounds and managed with precision. From first inquiry to long-term care, their hands-on approach ensures a seamless, elevated ownership experience.

Bespoke, for the yacht of your dreams

As a custom and semi-custom builder, GranOcean stands out with supreme customizability and options for a bespoke yacht build at an exceptional value more typical of a production vessel. With options from multiple layouts and finish options to custom-built furniture, your GranOcean is designed just for you.

Custom Interiors by Vripack

The Vripack Dutch design studio is known for its holistic approach to yacht design, integrating naval architecture, engineering, and innovative aesthetics to create vessels that are not only visually striking but also highly functional and efficient.

W-Series

W-Series

Explore the GranOcean W and X Series semi-custom and custom power catamarans built for ocean-going performance, impressive living space and world-class sophistication at sea. Unique on the world market for style, value and technical solutions, GranOcean power catamarans are unmatched in comfort, space, and efficient cruising.

The GranOcean W-Series of yachts delivers the most spacious power catamarans available in their class. Its flared hulls combined with a high bridge deck clearance and wide beam provides a smooth riding platform and unmatched living space. The distinctive flybridge wings offer extra space for sunbathing or storing a large tender, while also providing valuable shade and protection for the cockpit and engine room hatches.

W 60

Sleek, fuel-efficient 60-foot powercat delivering comfort and top-tier performance at an unbeatable value.

W 72

Spacious, luxury 72-foot powercat built for long-haul cruising with worldclass stability and luxury.

Features

- Flybridge “wings” for extra space above & shade protection below
- Cockpit dayhead for convenience & guest use
- Numerous layout options & cabin configurations
- Quality, semi-custom builds, at prices more in line with production vessels

Performance

GranOcean yachts are built not just for beauty, but for world-class performance that goes the distance—literally. Our W-60 made the journey from Hong Kong to Sydney on her own bottom, a true testament to the efficiency, durability, and seakeeping of our designs.

In direct efficiency comparisons, the GranOcean W-60 stands shoulder-to-shoulder with top performers in her class. As for our GranOcean W-72, the efficiency at lower speeds is unmatched—using nearly half the fuel of our nearest competitor.

W-Series Possibilities

At GranOcean, every yacht is a blank canvas designed around your lifestyle. Want the galley forward, or below? No problem. Custom work spaces to accommodate your business or equipment? Absolutely. From hybrid propulsion to tender storage to a wide range of hull colors, the options are endless—because no two owners are the same, and neither are our yachts.

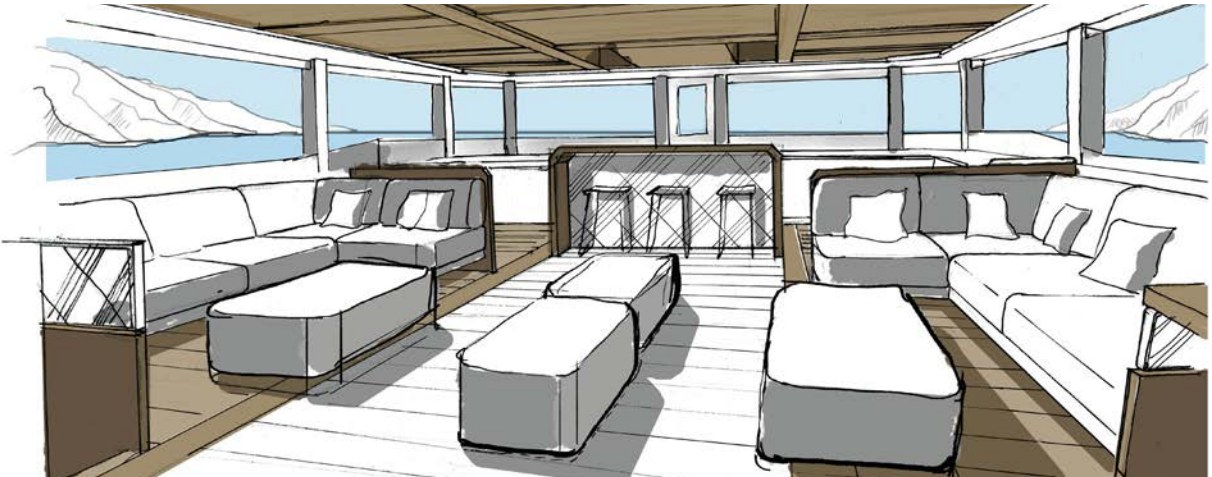

Customizations: Semi-custom build throughout

- Open Flybridge (standard) or Enclosed (upper wheelhouse) Flybridge
- Galley placement (up/down, forward/aft)
- Furniture layout / upholstery
- Cabin configuration options
- Tender storage
- Solar options
- A range of engine options
- Hybrid Propulsion

Interior design Designers at Vripack have created 4 unique styles for each of the W-series catamarans, bringing superyacht style to power catamarans.

- Mediterranean
- Scandinavian
- Elegant Chique
- Cosmopolitan
