Overview

To deliver a thoroughbred performance and an assured, stable ride. The latest resin infusion technology enables an engineered weight reduction to achieve higher speeds, lower fuel consumption and an increased cruising range while raised bulwarks and deep side decks confirm she is a motor yacht of real stature. As with all Princess Motor Yachts, her interior is spacious, light filled and beautifully detailed. An elegant saloon leads to a formal dining area adjacent to the galley which can be fully opened to create a highly sociable atmosphere or separated via a powered bulk-head when privacy is required. Discrete access for crew has also been considered with side doors to both the galley and helm.
