FAIRVIEW YACHTING

Overview

Asia's geography, climate, logistics and infrastructure present its own unique challenges, and with this in mind, the Raja Laut was designed with the specific requirements for yacht charter in South East Asia.

Raja Laut's interior spaces are built from selected tropical hardwoods, and accommodate 12 guests in 6 cabins, each features an ensuite bathroom (3 double bed cabins, and 3 twin bed cabins) with airconditioning throughout.

The exterior of the yacht features a stunning teak deck, with multiple beds for sunbathing or lounging, both in the sun and under shade, and a central dining table, where meals are served alfresco under a large awning.

Raja Laut yacht charter in South East Asia is a unique experience. There are well over 20,000 islands in the region and there are even more ways to create journeys for discerning travellers. We take pride to deliver itineraries, developed over a decade of handson experience, while always presenting the opportunity for surprises, explorations, extraordinary moments, simple pleasures, human connections, and unforgettable emotions.

From Myanmar's Mergui Archipelago in the northwest to Indonesia in the southeast, with Malaysia and the Philippines in between, Southeast Asia is a scuba diving paradise. When you choose scuba diving as part of your journey we ensure that your dives are guided by an experienced PADI dive instructor.

Specialists in yoga, spa/massage can be provided for private charter on request.

Our crew is composed of 7 members including captain, engineer, chef, steward/stewardess, deckhand and dive instructor. Please enquire for detailed crew profile.
