Overview

Rascal is a newly built 31-metre phinisi cruiser that launched in early 2017. Handcrafted on Indonesian shores by local shipwrights using ironwood and teak, Rascal was skillfully designed to combine traditional techniques with contemporary facilities.

A true combination of East meets West, Rascal showcases the latest in Western boating technology, the result a cutting-edge contemporary yacht possessing the soul and secrets of a traditional Indonesian phinisi sailing boat.

Rascal takes guests on experiential journeys around Indonesia's beguiling islands, spending the summer season in Komodo National Park and winter in Raja Ampat. From off-radar island destinations to exhilarating marine life immersions, on-deck degustation to rooftop midnights stargazing, everything is provided with casual, barefoot freedom and fun.

Guests are greeted with a stylish and personalized cruising experience – warm hospitality from the talented, knowledgeable and passionate crew of nine, including a western cruise director, a dive guide and a talented private chef.

The modern luxury yacht is the perfect choice for families or friends looking for a stylish sailing sojourn in Indonesia.

Inside the yacht, guests will find a bar and dining area decorated by local firm iBalDesigns and Charles Orchard furniture, and finished with a good dose of tropical luxe charm. Rascal's outdoor spaces include a sheltered dining area on the aft deck and a vast 1280 ft infinity roof deck for sunbathing.

Rascal's pared back beach chic is elevated with excellent hospitality. The private chef works with special menus curated by Bali's famed Watercress restaurant, while award-winning Proof & Company mixologists inspired the cocktail list.

In the cabins, Rascal draws inspiration from Hampton's style beach houses with a playful, tropical twist. Her 5 spacious air-conditioned cabins are all uniquely situated above deck, promising large windows that draw in the spectacular ocean views. Each one features high ceilings and an en-suite bathroom.

Rascal's layout is made up of two beautiful double cabins on the upper deck, with one featuring double doors leading onto an upper-aft private deck. On the main deck are two further double cabins as well as a double with a single bunk bed, making this yacht a great choice for families. All cabins feature flatscreen TVs with a catalogue of over 1000 complimentary movies, SONOS interactive music systems and universal electrical sockets.
