Overview

Constructed by the prestigious Amels Yard, the motor yacht SARAH built in 2002 and refitted in 2016. She was designed by Donald Starkey, with a handsome dark-blue hull and a grand superstructure. At 62m long and 1,370 gross tonnes, SARAH is a very large yacht, with a huge volume available for guest areas.

Built with Aluminium superstructure and Steel hull. She features an ultra-modern stabilization system to reduce roll motion effect and ensure the ultimate comfort throughout your charter vacation. SARAH is built to comply to MCA and Lloyds Register standards. With a cruising speed of 12 knots, a maximum speed of 17 knots and a range of 6,000nm from her 120,000 litre fuel tanks, she is the perfect combination of performance and luxury.

Unusually, SARAH has 9 guest staterooms, thereby offering greater flexibility of sleeping arrangements for charter clientele. These include a full beam master stateroom with super-king bed on the main deck, 4 further queen double staterooms (2 on the main deck and 2 on the upper deck) and 4 twin staterooms (lower deck), all with luxurious en-suite facilities. The guest areas have flatscreen TVs, with Satellite TV, on-demand movies and music, as well as WiFi internet throughout the yacht.

For those who enjoy the sunshine, guests can sunbathe on the large sundeck, or choose to cool off in the large jacuzzi situated forward. When they have had enough sunshine, they can have a refreshing drink at the bar on the sundeck. Both aft and forward areas of the sundeck have removable sun awnings allowing flexibility as to the amount of sunshine guests require.

The yacht carries 2 luxurious tenders and a large selection of water sports toys thereby offering the more active guests a huge array of activities to keep them entertained.

The yacht carries a large compliment of 21 crew, further ensuring that guests have the most wonderful superyacht charter experience whilst aboard SARAH.

Specifications

Model	62 metres
